The most versatile available fully rugged handheld built to meet Military Standards

For More Information Visit www.ruggedmobility.com.au

The PS336 comes with Lifesupport™ technology which allows the system to continue to run for 120 seconds while you swap the battery to provide continuous power.

The IP68 certified Getac PS336 is the most versatile available fully rugged handheld built to meet MILSTD810G with FlexiConn™ technology, with an enhanced 1GHz CPU, 600 nits super bright screen, 7 programmable quick keys and 12 hour battery life. FlexiConn™ technology offers you the ability to turn your PS336 to a multitasking efficiency device through a number of plug-and-play modules available today (long range Bluetooth, 13.56MHz RFID reader, 1D laser barcode reader, 3in1 card reader) making it ideal for GIS surveying, GPS/mapping and other applications.

The built-in GPS receiver, E-compass, altimeter and 5M pixels autofocus camera with LED flash have been neatly integrated to develop an all-in-one solution. Featuring an RS232 serial port and USB on-the-go, Getac PS336 provides high compatibility and flexible connectivity for various industrial applications. The embedded 8GB memory storage plus an external SDHC card slot supporting up to 32GB ensure extensive data process and storage.

The PS336 comes with Lifesupport™ technology which allows the system to continue to run for 120 seconds while you swap the battery to provide continuous power. The IP68 certified PS336 is designed to withstand repeated drops from up to 6 feet, vibrations and shock. This fully rugged handheld with comprehensive GIS functionalities just got better, to deliver all your needs for today and tomorrow.
