TOUGHBOOK CF-54MK1

SEMI-RUGGED HIGH PERFORMANCE PC

Panasonic has redefined the design of semi-rugged notebooks with the launch of its Toughbook CF-54. Created for a wide range of workers in areas such as the automotive diagnostic industry and field service workers specialising in repairs and maintenance, the new Toughbook CF-54 with Windows 8.1 Pro is one of the thinnest and lightest semi-rugged notebooks in its class. However, it doesn't compromise on durability, with a unique 'honeycomb' design for improved strength, MIL-STD 810G and a spill resistant keyboard and touchpad. In terms of flexibility, the Toughbook CF-54 is equally outstanding, offering a huge array of configuration options, making it effortless for customers to choose the exact device spec they need.

- Intel® Core™ i5-5300U vPro™ Processor
- Windows 8.1 Professional
- 14-inch IPS Full HD (1920 x 1080) LCD
- Optional 1000 nit sunlight viewable and glove enabled touchscreen
- Ergonomic design including integrated pull out handle for easy carriage
- Withstands drops from a height of 76cm*
- Spill resistant keyboard and touchpad**
- Robust magnesium alloy casing with shock-protected HDD
- Battery life up to 11 hours or up to 18 hours with optional second battery (mobile mark 2007)
- LAN, PC Card slot, Express card slot, SDXC card slot, USB 3.0 x3, Serial port, HDMI and VGA
- Optional configuration area (DVD or second battery or Smartcard Reader or PC Card)
- Optional configuration port (2nd LAN or dedicated GPS or 4th USB 2.0 or Rugged USB)
- Built-in security chip (TPM v1.2) for data protection

* Carried out in Panasonic technical research lab. Test conducted in non-operating condition.

** Spill resistance applies to all of the keyboard. It does not apply to the side panel, battery section, speakers, and DVD drive when it is open. The spill-resistant performance of the product does not guarantee that it will be free from damage or malfunction. If water is spilled onto it, be sure to have it repaired.

TOUGHBOOK CF-54MK1

SEMI-RUGGED REDEFINED

Breaking the mould for semi-rugged notebooks, the Toughbook CF-54 is only around 30mm thick and weighs just under 2kg. Equipped with Windows 8.1 Pro and the new 5th generation Intel® Core™ i5 vPro™ processor which delivers faster computing power, better graphics performance and lower power consumption than its 4th-generation counterpart, the Toughbook CF-54 sets a new benchmark.
